## About Me

---

React.js developer with 3 years of experience in building scalable web applications. Skilled in implementing clean, maintainable code and passionate about delivering user-centered designs. Known for collaborating with cross-functional teams to enhance product quality.

## Experience

---

**React JS Developer**, Global Garner – Bengaluru | [Website](#) Sept 2021 - Present

- **Enterprise-Level Applications:** Developed scalable React.js applications, reducing page load time by 15% through optimized component design.
- **Cross-Functional Collaboration:** Partnered with design and QA teams to meet 100% of project deadlines while adhering to business requirements.
- **User-Centric Components:** Built and integrated responsive components using React.js and Tailwind CSS to ensure seamless user experiences across desktop and mobile devices.
- **Travel Modules:** Developed and implemented frontend features for flight and travel modules, providing users with a streamlined booking experience. Used React.js and Tailwind CSS to ensure a responsive, user-friendly interface.

## Projects

---

**NPM Package Publish | Custom tailwind button** | [Link](#) June 2024 - Aug 2024

- **Overview:** Developed a customizable button component for Tailwind CSS, designed to enhance user interface consistency and responsiveness in web applications.
- **Extensive Customization:** Enabled users to easily modify styles, sizes, and variants through props, promoting design flexibility.
- **Technical Stack:** React, Tailwind CSS, NPM, Git, and accessibility best practices.
- **Deployment:** Managed version control and published updates on NPM, ensuring users had access to the latest features.

**GGCS** | [Website](#) Mar 2023 - Aug 2023

- Built reusable components and optimized state management solutions using React.js and Redux, resulting in a 25% decrease in development time for future projects.
- Ensured mobile responsiveness across devices using Tailwind CSS and implemented cross-browser compatibility.

**Jagdai Food** | [Website](#) Nov 2023 - May 2024

- Developed a responsive and mobile-friendly web interface using React.js and Tailwind CSS, providing a consistent user experience across devices.
- Focused on creating a clean and intuitive layout to enhance user navigation and improve customer engagement.

## Skills

---

**Frontend:** React JS, Next JS, Javascript(ES6), React Native & Redux

**UI libraries :** Tailwind CSS, & MUI

**Tools:** Postman, Vercel, Netlify, Git

## Education

---

**Mangalore University**, Bachelor's of Computer Application

Aug 2017 – December 2020
